BERGER'S
Classik
METAL CEILINGS

Metal Lumber

For medium sized buildings it is the ideal light, fireproofing material. Replaces wood, stick for stick, in the superstructures of all such buildings.

Prong Lock Studs and Furring

for fireproof partitions and ceilings. Bending over the prongs secures the lath to the furring. Use them with

Berger's Metal Lath

for strong, rigid plastering surface. Has an even, uniform mesh, and no sharp edges to injure the hands.

Ferro-Lithic AND

RIB-TRUS PLATES

Self-centering, reinforcing plates for floors, roofs and sidings, walls, ceilings and partitions. Can be concreted on one side and plastered on the other.

Multiplex

Reinforcing Plates are particularly adapted to floors of bridges, warehouses, etc., where extreme strength is essential. Also makes an admirable plate for heavy roofs.

We are glad to give you catalogs of any of these materials and to furnish estimates

SPECIAL NOTICE

The fact that an alarm-box is located near their residence should be known to all persons; also the simple manner of giving an alarm in case of fire. The Fire Commissioner recommends to all persons who may see this notice that they familiarize themselves with the location of boxes in the vicinity of their homes and places of business and make the necessary inquiries to enable them in case of need to give an alarm or to direct others to do so. Time saved in this way may sometimes prevent a conflagration.

In case of fire follow these

DIRECTIONS

Go to the nearest box to the fire.
A sign over each box directs how to give an alarm.
Open the door of the box—pull the hook all the way down once and let go. Opening the door rings the bell on the door but does NOT give an alarm.
Listen for the working of the machinery in box. If you do not hear it, pull again.
If then you hear no sound, go to the next nearest box. Repeat the same there, but do not touch any other box if the nearest one gives the alarm.
After giving the alarm remain awhile, if possible, by the box, so as to direct the firemen to the fire.
SOUNDING ALARM.—No person will give alarms for the same fire (after the first alarm has been given) without an order from the chief or the officer in command.

CAUTIONS

1. Never open the box or touch the hook except in case of fire.
2. Never give an alarm for a fire seen at a distance.
3. Be reasonably sure that there is a fire before giving an alarm.
4. Be sure your box is closed before leaving it.

PUBLIC CARRIAGE FARES IN BOSTON

MOTOR TAXICABS

The maximum prices or rates of fare which drivers of hackney carriages propelled by mechanical motors and using taximeters as the means of measuring the distance traveled, shall be known as "Motor Taxicabs," may charge and demand for services rendered in conveying passengers as follows:

From point to point within the city limits:	
First half mile or fraction thereof, for one person	40c.
Each quarter mile thereafter	10c.
Each additional person for the whole journey	20c.

Waiting time shall include all time during which the vehicle is not in motion, beginning six minutes after its arrival at the place to which it has been called, or, if engaged in the street or at a stand, beginning six minutes after the time of such engagement. A charge at the rate of 30 cents for twelve minutes may be made for any part of the first chargeable twelve minutes of waiting, and for all subsequent waiting a charge of 10 cents for each six minutes may be made. But no time shall be made for time lost through interruption of street traffic or through the inefficiency of the vehicle or its driver, or for time between premature arrival in response to a call and the hour for which the vehicle was ordered.

No charge shall be made for a distance less than one mile traversed by a vehicle sent in response to a call, but for a greater distance a charge of 20 cents a mile may be made for each mile or fraction of a mile in excess of the first mile.

When a vehicle is dismissed at a point more than two miles distant from the place at which it was engaged or from the place in which it was when called, a charge of 20 cents a mile may be made for each mile or fraction of a mile in excess of such two miles.

Hand baggage may be carried by passengers without charge. The carriage of trunks shall be optional with the person in charge of the vehicle; but if carried, the charge shall be 25 cents for each trunk.

Ferry tolls will be paid by passengers.

When a motor taxicab is hired by the hour or for a trip wholly or in part outside the limits of the City of Boston, the person in charge may suspend, with the consent of the passenger, the use of the taximeter as a means of determining the price to be paid, and the motor taxicab shall come temporarily under the provisions of that part of this rule which relate to charges for automobiles.

AUTOMOBILES

The authorized fare for automobiles other than motor taxicabs shall be the same as for horse-drawn hackney carriages. This rule shall not be deemed to apply, however, to automobiles when hired by the hour or for a trip wholly or in part outside the limits of the City of Boston. This rule shall apply to automobiles hired at a garage as well as to those hired in the public streets. The rule as to baggage for motor taxicabs shall apply also to automobiles.

HORSE DRAWN—For one passenger from one point to another within the city proper, 50 cents. For one passenger from one point to another within Charlestown, within East Boston, within South Boston, within Roxbury 50 cents. Each additional passenger 50 cents. For distances beyond certain limits the rates are \$1.00 and upwards.

For a complete statement of the rates for public carriages the inquirer is referred to the condensed schedule and map on page 25.

Children under five years, with an adult, no charge.

Children between five and twelve years old, with an adult, HALF-PRICE.

From twelve at night to six in the morning the fare is 50 CENTS ABOVE THE PRECEDING RATES for each passenger.

No charge for one trunk; each additional trunk 25 cents.

BY THE HOUR—Passengers may at all times engage horse-drawn hackney carriages by the hour. The rates of fare for one, two, three or four passengers shall be as follows: For the first hour or fractional part thereof not more than \$1.50 and for each twenty minutes or fractional part thereof after the first hour not more than 50 cents.

The time shall be so reckoned as to include the time necessarily consumed between leaving and returning to the place from which the carriage was hired, whether during any portion of such time it has been empty or otherwise.

PARK CARRIAGES

The rates of fare for park carriages shall be as follows: If by time, each passenger shall pay twenty-five cents per hour, and five cents for every ten minutes or fraction thereof above even hours; if by distance, each passenger shall pay twenty-five cents for every five miles, and five cents for every mile or fraction thereof above five miles.

The drivers of park carriages shall not be required to carry any passenger for less than one hour, or less than five miles, unless such passenger pay twenty-five cents to carry a single person or a party of less than four persons for any time or distance unless such party or person pay him an amount equal to the fare of four passengers for such time or distance.

Books—eight ounces or less, 2 ounces 1 cent, over 8 ounces, parcel post rates.

Miscellaneous printed matter—4 pounds or less, 2 ounces 1 cent, over 4 pounds, parcel post rates.

Preparation for Mailing.—Parcels must be prepared for mailing in such manner that the contents can be easily examined. (See secs. 19 to 33, inclusive.)

A parcel must not be accepted for mailing unless it bears the name and address of the sender, preceded by the word "From."

Postmasters will refuse to receive for mailing parcels not properly indorsed or packed for safe shipment.

Admissible liquids and oils, pastes, salves, or other articles easily liquefiable will be accepted for mailing regardless of distance when they conform to the following conditions:—

When in glass bottles holding four ounces or less, the total quantity sent in one parcel shall not exceed twenty-four ounces, liquid measure. Each bottle shall be wrapped in paper or other absorbent substance and placed in a box made of cardboard or other suitable material and then placed in a box and packed in a container made of double-faced corrugated paste-board of good quality. The corners of the container must fit tightly and be re-inforced with tape so as to prevent the escape of any liquid. If the contents should be broken, and the whole parcel shall be securely wrapped with strong paper and tied with twine. Single bottles of liquid holding four ounces or less may also be packed as prescribed in the following paragraph:

When in glass bottles holding more than four ounces, the total quantity sent in one parcel shall not exceed sixteen ounces, liquid measure. The bottle must be very strong and must be inclosed in a block or tube of metal, wood, papier mache, or similar material; and there must be provided between the bottle and the block or tube a cushion of cotton, felt or other absorbent.

The block or tube must be at least one eighth of an inch thick in its thinnest part for bottles holding eight ounces or less and at least three-sixteenths of an inch thick for bottles holding more than eight ounces. The block or tube must be rendered watertight by an application on the inside of paraffin or other suitable substance and must be closed by a screwtop cover with sufficient screw threads to require at least one and one-half complete turns before it will come off.

The cover must be provided with a washer so that no liquid will escape if the bottle should be broken.

When in a metal container the weight limit of the parcel is the same as for other fourth-class matter. The container must be securely sealed and inclosed in a strong box

All packages containing liquid must be marked "Fragile."

Where Mailable.—Parcels must be mailed at a post office, branch post office, named or lettered station, or such numbered stations as may be designated by the postmaster, or delivered to a rural or other carrier duly authorized to receive such matter. Parcels weighing four ounces or less may be mailed in the same manner as matter of other classes.

Parcels collected on star routes must be deposited in the next post office at which the carrier arrives and postage charged at the rate from that office.

Insurance on Parcels.—A mailable parcel on which the postage is fully prepaid may be insured against loss upon payment of a fee of 3 cents for value not exceeding \$5, or 5 cents for value not exceeding \$25, or 10 cents for value not exceeding \$50, or 25 cents for value not exceeding \$100, in addition to the postage, both to be prepaid with stamps affixed. It may not be registered.

Return Receipt for Insured Parcels, may be obtained by indorsing the parcels "Return receipt desired."

C. O. D. Collections, not exceeding \$100, made for fee of 10 cents in addition to postage, which also insures package. This is done only at Money Order Offices. A "C. O. D." tag furnished by the postmaster must be filled in by the sender and attached to the parcel. A receipt is given to the sender at the time of mailing, but no return receipt is furnished, as the remittance shows that delivery has been made.

All Stamps good for postage.

A red flag with a black center indicates that a storm of marked violence is expected.

The pennants displayed with the flags indicate the direction of the wind; red, easterly (from northeast to south); white, westerly (from southwest to north). The pennant above the flag indicates that the wind is expected to blow from the northerly quadrant; below from the southerly quadrant.

By night a red light will indicate easterly winds and a white light below a red light will indicate westerly winds.

The Hurricane Warning consists of two red flags with black centers, displayed one above the other. It is used to announce the expected approach of tropical hurricanes, and also of those extremely severe and dangerous storms which occasionally move across the great lakes and the Northern Atlantic Coast. The flags are the same as the one now used for the distinctive signal, the pennants being omitted.

Small craft warning.—A red pennant indicates that moderately strong winds are expected. No night small craft or hurricane warnings are displayed.
